

MINOR IN DATA SCIENCE

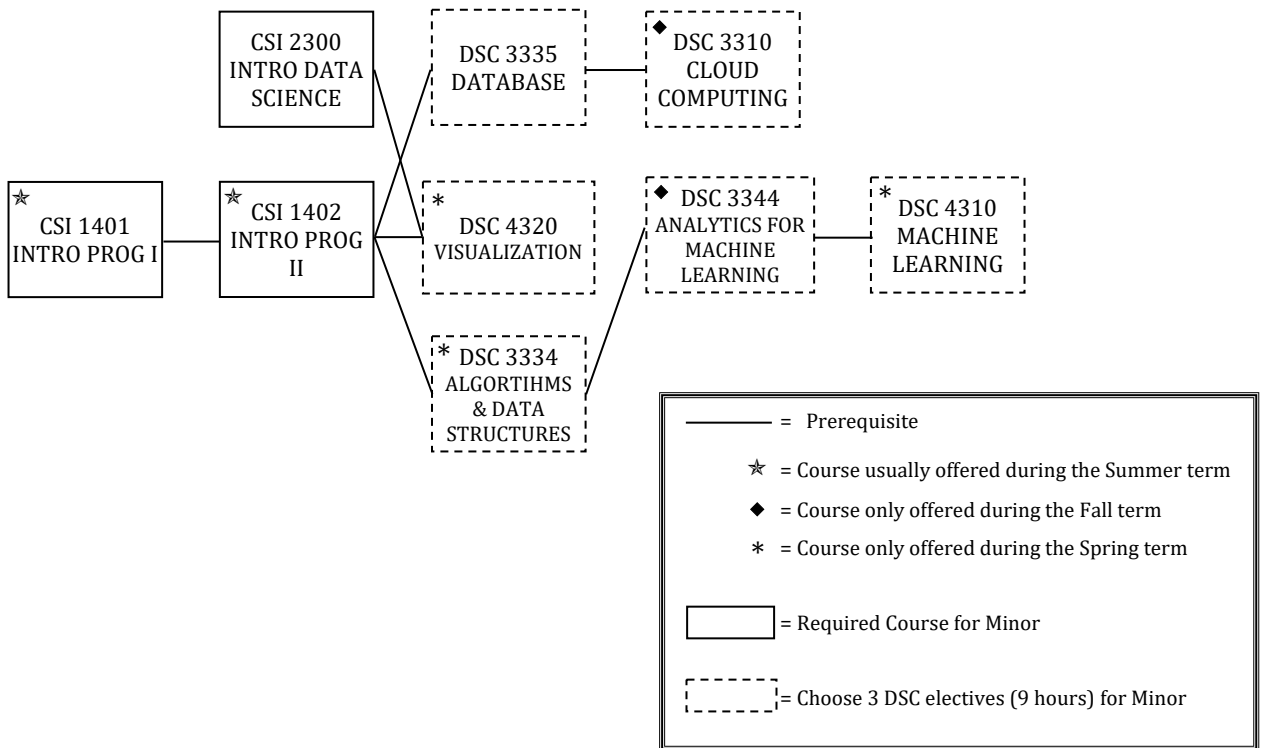

2023 - 2024

REQUIREMENTS FOR A MINOR IN DATA SCIENCE:

Twenty semester hours in computer science and data science, including the following:

- A. CSI 1401, 1402, and 2300
- B. Nine semester hours from the following 3000/4000 level courses: DSC 3310, DSC 3334, DSC 3335, DSC 3344, DSC 4310, DSC 4320
- C. A grade of "C" or better in all courses used for the minor

FLOWCHART OF COURSE SEQUENCES:

NOTES:

- The minor will take 3-5 semesters to complete, depending on the course offering schedule. It is recommended that students allow 5 semesters. Keep in mind that it is common among ECS courses to only have one section option per semester, which may create conflicts with other required classes.
- Course offerings can be unpredictable because many of the upper-level DSC courses are new. Please consult with an ECS Advisor to receive guidance on future offerings.
